

Job Title: Mechanical Maintenance Engineer

Location: Kuilsriver, Cape Town

Kamal CISCO is seeking an experienced Mechanical Maintenance Engineer to provide high level mechanical and technical support to the mechanical maintenance department, including planning and carrying out scheduling, coordinating and supervising the maintenance employees. Ensuring that all work is delivered safely, on time and within parameters set down by management, along with managing equipment and materials required.

Key Responsibilities:

- Prepare planned maintenance schedules and get approval from Plant & Maintenance Manager
- Monitor and maintain a record of the condition of all mechanical machinery
- Plan and prepare for maintenance activities to ensure minimal disruption or delay to production process
- Organise, lead and control shift fitters in executing repair, maintenance and new installations.
- Investigate the need for suitable replacement parts of equipment and make recommendations to Plant & Maintenance Manager
- Consult with Plant & Maintenance Manager on purchase of spares or replacement equipment, ensure that orders are timeously placed, and follow up deliveries
- Train personnel in the execution of maintenance and safety procedures, through in task instruction as well as formal lectures or demonstrations
- Maintain knowledge of the most recent technological developments in the Kamal CISCO field of endeavour, with particular reference to mechanical engineering, by attending selected courses, consulting with equipment suppliers, and perusing technical journals
- Maintain discipline and good industrial relations within the department
- Ensure that company policies and objectives are communicated to members of the department
- Ensure that employee suggestions, personal difficulties and grievances are communicated to management, and take the necessary action to resolve such matters

Qualifications:

- N4 Mechanical Technician/diploma
- Qualified red seal artisan
- Grade 12 or Job-related qualifications
- Valid Code 8 License
- Computer literate

Requirements:

- +10 years' experience in manufacturing maintenance environment
- Experience in Steel making industry will be advantageous
- Must be able to work independently and as part of a team
- Safety training will be an advantage

If you are interested in applying for this position, please send your CV, including three contactable references, to recruitment@kamalcisco.co.za before **25 September 2025**.

Shortlisted candidates will be contacted for an interview; should you not receive any notification after two weeks; we thank you for your interest but please recognise that your application has not been accepted.
