

Kamal Cape Town Iron and Steel Company (CISCO) is seeking experienced applicants, who have worked in the steel making industry for a minimum of five (5) years, who would be interested in applying for the vacancies listed hereunder:

1 x Mechanical Maintenance Engineer

To provide high level mechanical and technical support to the mechanical maintenance department, including planning and carrying out scheduling, coordinating and supervising the maintenance employees. Ensuring that all work is delivered safely, on time and within parameters set down by management, along with managing equipment and materials required.

1 x Mechanical Supervisor

To organise, lead and control shift fitters in executing repairs, maintenance and new installations. Plan and prepare for maintenance activities to ensure minimum disruption or delay to production processes and to monitor and maintain a record of the condition of all mechanical machinery.

1 x Maintenance Planner

To lead the maintenance planning to ensure timely maintenance (shutdown or scheduled jobs) of equipment to avoid loss of production. Preferably with mechanical engineering background and conversant with using ERP software.

1 x Boilermaker

To perform all duties required i.e. gas cutting, grinding, welding and machine adjusting activities.

2 x Shift Electricians

To ensure the optimal working conditions for the entire organization by maintaining and repairing all electrical faults be they planned or emergencies.

1 x Shredder Operator

Experience and competent operator who has the cognitive ability to identify and possibly diagnose challenges with the machinery in order to accurately assist the engineering and electrical maintenance teams for any repair plus standard maintenance to minimize downtime.

1 x Scrap Purchaser

Responsible for sourcing good quality scrap, and competitive pricing, according to production requirements. To source and tie up vendors for scrap purchases and ensure availability of scrap as per production team requirements.

1 x Scrapyard Supervisor

To plan and carryout scheduling, coordinating and supervising the scrapyard employees, ensuring that all work is delivered safely, on time and within parameters set down by management.

If you are interested in applying for any of these positions, please send your CV, before 31 October 2025, to recruitment@kamalcisco.co.za. Candidates must include their current CTC, expected CTC, notice period and readiness to relocate in their application.

Shortlisted candidates will be interviewed in locations suitable to their current domicile within the first two weeks of November.
